

## Corporate Sustainable Partnership Program

We'd like to invite you to join our Corporate Sustainable Partnership Program. Our Partners are fueled by the passion to use their resources to help those who need it most, staying closely connected to the work of FFC and the people they are supporting.

### Our Mission

We exist to use our passion for fly fishing for a good and just cause. We formed Fly Fishing Collaborative to mobilize the world's fly fishing community to use the skills we have to provide women and children the protection and healing they need from the injustice of poverty and sex trafficking.

According to the United Nations Children's Fund (UNICEF), human trafficking is the world's third-largest enterprise after drugs and weapons. Over 2 million children are affected annually, and studies show that children caught in sex trafficking are victimized by 100-1,500 perpetrators each year!

The money we raise through our events and generous giving is used to build sustainable Aquaponic Farms, which provide resources to women and children who would otherwise become currency, literally needing to sell themselves as a livelihood in a broken world.
